■ INTRO — (0:00–1:30)

[UPBEAT BACKGROUND MUSIC — Fade in — Show aerial drone shots of Canadian countryside]

Hey everyone, welcome back to the channel! If you're new here — welcome, I'm so glad you found us.

Today's video is one I've been working on for a while, and honestly? It might be one of the most useful things I've ever put together for you.

We're talking about real, actual farm listings in Canada — and not just any farms. The CHEAPEST ones on the market right now.

Whether you're dreaming of a quiet life in the countryside, looking for an investment property, wanting to start your own homestead, or just curious what your money can buy out there — this video is for you.

I've gone through hundreds of listings, done the research, and hand-picked twelve farms that are not only affordable — but genuinely interesting. We're talking properties from British Columbia all the way to Nova Scotia.

[Show quick montage of farm images]

And for every single one, I'll give you the exact listing link in the description — and if you grab the free PDF script companion to this video, all the links are clickable right there for you.

Alright — let's get into it. Starting with the absolute cheapest farm on our list today.

■ FARM #1 — Guenter Land — Canwood RM No. 494, Saskatchewan

■ \$57,000 | ■ Canwood RM No. 494, Saskatchewan | ■■ 80 Acres

About this Property: This 80-acre parcel is located in the Rural Municipality of Canwood, Saskatchewan — one of Canada's most affordable farming regions. The land is a mix of open space and natural bush, offering incredible privacy and recreational value. It's listed by Rosthern Agencies and represents one of the best per-acre deals in the entire country. Perfect for a hunting retreat, hobby farm, or long-term land investment.

■ Listing Link:

<https://soldwell.com/real-estate/Canwood-Rm-No-494-SK/Guenter-Land-S0J-0K0-SK026353-10235994>

■■ Timestamp: 1:30 – 3:30

■ SCRIPT:

Alright — number one! And coming in at just fifty-seven thousand dollars, this is technically the cheapest farm on our list today.

This is an 80-acre property in the Rural Municipality of Canwood, Saskatchewan. Now — eighty acres for under sixty grand. Let that sink in.

The land is described as a mix of open areas and natural bush — it's your own private piece of Saskatchewan paradise, and I mean that literally. You could hunt, camp, build a cabin, or just let it sit and appreciate in value.

Now Saskatchewan farmland has been rising steadily year over year, so buying raw land here at this price point is actually a pretty smart long-term play even if you don't plan to farm it right away.

[Show Saskatchewan landscape imagery]

There's no house on it, no services — it's raw land, so go in with eyes open. But for the price of a used car, you get EIGHTY acres of Canada. I mean — that's wild.

■ **Fun Fact:** Saskatchewan is the largest wheat-producing province in Canada, growing about 40% of the country's entire wheat supply. The land here has been feeding the world for over a century!

■ FARM #2 — Highway 209 — Kirkhill, Nova Scotia

■ \$49,900 | ■ Kirkhill, Nova Scotia | ■■ 74.13 Acres

About this Property: Listed by RE/MAX County Line Realty, this 74-acre lot sits along Highway 209 in rural Kirkhill, Nova Scotia. Nova Scotia farmland is famously affordable, and this parcel offers a large footprint for the price. The land is listed as ID#9A and is part of a broader collection of rural lots being offered in the area. Great for hobby farming, forestry, or a private rural escape in Atlantic Canada.

■ **Listing Link:** <https://soldwell.com/real-estate/Kirkhill-NS/Highway-209-B0M-1H0-202507346-9178748>

■■ **Timestamp:** 3:30 – 5:30

■ SCRIPT:

Number two — and this one is actually cheaper than the last one. Coming in at just forty-nine thousand, nine hundred dollars.

We're heading over to Nova Scotia for this one — Kirkhill, to be exact. And you're getting 74 acres here. Seventy-four acres for under fifty thousand dollars.

Nova Scotia is one of the most beautiful provinces in this country — rolling hills, Atlantic breeze, incredible landscapes — and this is your chance to own a piece of it for less than most people's yearly salary.

This listing is a bare land parcel along Highway 209, so it's accessible and ready for you to put your vision on it.

[Show Nova Scotia coastal imagery]

Now one thing to note — the sellers have a few properties in this area and some have conditions tied to each other selling first. So when you inquire, just double-check the current status. Link is in the description and on the companion PDF.

■ **Fun Fact:** *Nova Scotia means 'New Scotland' in Latin, and Scottish Gaelic is still spoken in parts of Cape Breton today — making it one of the last places outside Scotland where the language is alive!*

■ FARM #3 — Kirkhill Road — Kirkhill, Nova Scotia

■ \$49,900 | ■ Kirkhill, Nova Scotia | ■■ 111 Acres

About this Property: Also listed by RE/MAX County Line Realty, this second Kirkhill property offers even more land at the same price point — 111 acres along Kirkhill Road for just \$49,900. This is an extraordinary value by any standard. The property is sold conditionally on a companion parcel selling first, so buyers should reach out to the agent for the latest status. The sheer acreage per dollar here is almost unmatched anywhere in Canada.

■ **Listing Link:** <https://soldwell.com/real-estate/Kirkhill-NS/Kirkhill-Road-B0M-1S0-202507336-9178314>

■■ **Timestamp:** 5:30 – 7:30

■ SCRIPT:

Alright, hold on — because farm number three is ALSO in Kirkhill, Nova Scotia, and it's also forty-nine thousand, nine hundred dollars.

BUT — this one is one hundred and eleven acres. You heard that right. One hundred and eleven acres.

So same price as the last farm, but you're getting nearly 50% more land. That is honestly one of the best deals in this entire video.

[Point to camera dramatically]

Now there IS a condition on this one — the sellers won't sell this parcel until a companion property sells first, so you'll want to contact the agent and get the latest update. But if that condition has cleared, you'd be looking at over a hundred acres of Nova Scotia land for the price of a mid-range laptop.

Don't sleep on Atlantic Canada, folks. It is genuinely one of the best-value regions in this entire country right now.

■ **Fun Fact:** *Nova Scotia has the highest tides in the world at the Bay of Fundy — the water rises and falls up to 16 metres (53 feet) twice a day, which is taller than a four-storey building!*

■ FARM #4 — On The 209 Road — Dawson Creek, British Columbia

■ \$75,000 | ■ Dawson Creek, British Columbia | ■■ 40 Acres

About this Property: Listed by Royal LePage Aspire, this 40-acre parcel sits just off the 209 Road in rural Dawson Creek, BC. It is described as ready to develop in whatever direction the buyer chooses — whether that's a homestead, farm, or cabin retreat. Dawson Creek is located in the Peace River region of northeastern BC, known for its agricultural potential and wide-open spaces. The land sits in one of the most affordable corners of British Columbia.

■ Listing Link:

<https://soldwell.com/real-estate/Dawson-Creek-BC/On-The-209-Road-V0C-2L0-10371504-10207492>

■■ **Timestamp:** 7:30 – 9:30

■ SCRIPT:

Number four takes us all the way to British Columbia — and we're going northeast to Dawson Creek.

Now if you know your Canadian geography, Dawson Creek is famous for being Mile Zero of the Alaska Highway. It's the starting point of one of the most legendary road trips on the continent.

And you can own 40 acres here for just seventy-five thousand dollars.

[Show BC northern landscape imagery]

The listing says the property is ready to develop however you choose — bring your plans and build your dream home or farm setup. It's raw land, so you have a clean slate.

Forty acres in BC for seventy-five grand? Honestly, by BC standards, that is an absolute steal. The province is known for some of the most expensive real estate in the country, so finding raw agricultural land at this price point is genuinely rare.

■ **Fun Fact:** Dawson Creek is the official starting point — Mile Zero — of the Alaska Highway, a 2,237-kilometre road that was built in just eight months during World War II by over 10,000 US Army soldiers!

■ FARM #5 — Lot B4 Highway 2 — Lakelands, Nova Scotia

■ \$74,900 | ■ Lakelands, Nova Scotia | ■■ 28.6 Acres

About this Property: This 28.6-acre parcel along Highway 2 in Lakelands, NS is listed by RE/MAX County Line Realty Ltd. It's part of a collection of rural lots available in this scenic area. While smaller than some of the other Nova Scotia entries on this list, its highway frontage provides excellent accessibility, and the sub-\$75K price makes it one of the most affordable entry points into farm ownership in Atlantic Canada.

■ Listing Link:

<https://soldwell.com/real-estate/Lakelands-NS/Lot-B4-Highway-2-B0M-1S0-202507447-9185322>

■■ **Timestamp:** 9:30 – 11:30

■ SCRIPT:

Farm number five brings us back to Nova Scotia — and this time we're in Lakelands.

This one is a 28.6-acre lot with highway frontage along Highway 2 — and it's listed at seventy-four thousand, nine hundred dollars.

Now you might be thinking — twenty-eight acres is smaller than the others. And you're right! But this one has the advantage of direct highway access, which means easier development, easier delivery of materials, easier everything.

If you're thinking about building a small hobby farm, keeping horses, growing your own food — twenty-eight accessible acres along a main highway is a really solid start.

[Show rural Nova Scotia highway imagery]

And again — under seventy-five thousand dollars. That is remarkable value for a province with this much natural beauty.

■ **Fun Fact:** Nova Scotia is home to over 3,800 lakes, which is why regions like 'Lakelands' got their names — the province is practically dotted with freshwater bodies, many of which are teeming with salmon and trout!

■ FARM #6 — Highway 2 — Lakelands, Nova Scotia

■ \$99,900 | ■ Lakelands, Nova Scotia | ■■ 172 Acres

About this Property: Also listed by RE/MAX County Line Realty Ltd. in the Lakelands area of Nova Scotia, this massive 172-acre parcel is the largest single lot on our list today. For under \$100,000, you're getting a tremendous amount of land with excellent highway access. The per-acre cost here is remarkable — under \$600 per acre for Nova Scotia farmland. Whether for forestry, agriculture, or future development, this represents outstanding long-term value.

■ **Listing Link:** <https://soldwell.com/real-estate/Lakelands-NS/Highway-2-B0M-1S0-202507436-9184512>

■ **Timestamp:** 11:30 – 13:30

■ SCRIPT:

Okay — farm number six, and this one is a serious one. We're staying in Lakelands, Nova Scotia, and this listing is one hundred and seventy-two acres for just ninety-nine thousand, nine hundred dollars.

One hundred and seventy-two acres. For under a hundred thousand dollars.

Do the math with me — that's under six hundred dollars per acre. For Nova Scotia. With highway frontage.

[Pause for effect]

This is the kind of listing that gets shared in farming Facebook groups and sold before most people even know about it. So if this one catches your eye, I'd move fast.

This could be a tree farm, a cattle operation, a hobby farm — the options are genuinely wide open with this amount of land.

[Show aerial imagery of large forested property]

Under a hundred grand for 172 acres. Still can't get over it.

■ **Fun Fact:** *The Mi'kmaq people have called Nova Scotia home for over 10,000 years, and the province's name itself comes from their presence — early European settlers named it after Scotland, but the land's Indigenous roots run far, far deeper.*

■ FARM #7 — Ptl't 26 8th Concession — Ottawa, Ontario

■ \$275,000 | ■ Ottawa, Ontario | ■ Hunting & Outdoor Land

About this Property: Listed by RE/MAX Centre City Realty, this rural Ottawa-area land parcel is positioned as prime hunting and outdoor recreation property, with excellent potential as a long-term land investment. Located within proximity to Canada's capital city, the property benefits from an unusual combination of rural tranquility and urban accessibility. Agricultural zoning allows for a variety of uses. A rare chance to own land in Ottawa's rural belt.

■ **Listing Link:** <https://soldwell.com/real-estate/Ottawa-ON/Ptl't-26-8th-Concession-K0A-1B0-X12328753-9689544>

■ **Timestamp:** 13:30 – 15:00

■ SCRIPT:

Alright, we're now crossing into the two-hundred-and-something range, starting with farm number seven in the Ottawa area of Ontario.

Yes — OTTAWA. As in, Canada's capital city. As in, one of the most significant urban centres in the country.

And yet — here is a rural farm parcel listed at two hundred and seventy-five thousand dollars. In Ottawa's rural belt.

[Show Ottawa area map]

The listing describes it as perfect for hunting and outdoor recreation — and as a land investment. And given where it is — near a major city — you can bet this land is going to appreciate significantly over time.

If you want farmland but also don't want to be too far from city conveniences, hospitals, airports — this one is genuinely worth a look.

■ **Fun Fact:** *Ottawa is officially bilingual and is the only Canadian city that hosts parliament — but fun fact: it was chosen as Canada's capital by Queen Victoria in 1857, largely because it was seen as too far inland for American forces to easily attack!*

■ FARM #8 — Dieter Martin Greenhouse Ltd. — Langham, Saskatchewan

■ \$275,000 | ■ Langham, Saskatchewan | ■■ Agricultural Land Split by Highway 16

About this Property: Listed by Coldwell Banker Signature, this uniquely named property near Langham, SK — just 17.4 km from Saskatoon's 71st Street — is a split agricultural parcel bisected by Highway 16. One side is actively cropped, the other is rented out. The property has historical connections to greenhouse operations and sits in one of Canada's most fertile agricultural zones. Its proximity to Saskatoon makes it attractive both as a working farm and a development hold.

■ Listing Link:

<https://soldwell.com/real-estate/Langham-SK/Dieter-Martin-Greenhouse-Ltd-S0K-2L0-SK020601-10045994>

■■ **Timestamp:** 15:00 – 16:30

■ SCRIPT:

Number eight takes us back to Saskatchewan — and this one is a really interesting property.

It's called the Dieter Martin Greenhouse Ltd. property near Langham, SK. The land is split by Highway 16 — so you literally have farmland on both sides of a major highway.

One side is actively being cropped, and the other side is currently rented out to another farmer. So this could be income-generating from day one.

[Show Saskatchewan flat farmland imagery]

And here's what makes this extra appealing — it's only about 17 kilometres from Saskatoon, which is Saskatchewan's largest city. So you get rural land prices with city proximity.

Two hundred and seventy-five thousand dollars for land this close to a major urban centre and with an existing rental agreement? That's a genuinely compelling investment.

■ **Fun Fact:** Langham is located near Saskatoon, which sits on the South Saskatchewan River. Saskatoon's river valley is home to one of Canada's most beautiful urban trail systems — stretching over 60 kilometres of connected pathways!

■ FARM #9 — 6020 Kenmore Road — Grand Forks, British Columbia

■ \$279,000 | ■ Grand Forks, British Columbia | ■■ 2.22 Acres

About this Property: Listed by Grand Forks Realty Ltd., this 2.22-acre surveyed and staked property in the Grand Forks Rural area of southern BC is described as a tranquil oasis awaiting the buyer's vision. Located in the Boundary Country region of BC near the US border, Grand Forks is a small but vibrant community surrounded by mountains, rivers, and orchards. The property is move-in ready for building a home and small farm.

■ Listing Link:

<https://soldwell.com/real-estate/Grand-Forks-BC/6020-Kenmore-Road-V0H-1H4-10364759-10034964>

■■ **Timestamp:** 16:30 – 18:00

■ SCRIPT:

Farm number nine takes us to southern British Columbia — to Grand Forks, in the beautiful Boundary Country region.

Now this one is smaller — just 2.22 acres — but don't let that fool you. This is BRITISH COLUMBIA, where rural land prices can be absolutely brutal.

Two hundred and seventy-nine thousand for a surveyed, staked, and accessible piece of BC? That's actually really solid value.

[Show BC valley and mountain imagery]

The listing describes it as a tranquil oasis — and looking at the photos, I can see exactly what they mean. This is the kind of property you build a dream home on, put in a market garden, keep a few chickens, and live an absolutely beautiful life.

Grand Forks is known as the sunniest spot in BC's interior, which makes it ideal for growing food.

■ **Fun Fact:** Grand Forks has one of the largest communities of Doukhobors outside Russia — a pacifist religious group who fled persecution in Russia and settled here in the early 1900s, bringing with them a rich tradition of communal farming and vegetarian cooking!

■ FARM #10 — Choiceland Quarter RM #488 — Torch River, Saskatchewan

■ \$279,000 | ■ Torch River RM No. 488, Saskatchewan | ■■ Quarter Section (~160 Acres)

About this Property: Listed by Sheppard Realty, this quarter section (NE 34-52-18 W2) near Choiceland, SK in the RM of Torch River is a mixed parcel of open land and treed areas. Quarter sections are the standard unit of farmland measurement in the prairies, typically around 160 acres. This property offers a balance of agricultural potential and natural habitat, making it ideal for crop farming, cattle grazing, or a recreational hunting property.

■ **Listing Link:** <https://soldwell.com/real-estate/Torch-River-Rm-No-488-SK/Choiceland-Quarter-Rm-488-S0J-2M0-SK025780-10204218>

■■ **Timestamp:** 18:00 – 19:30

■ SCRIPT:

Number ten — another Saskatchewan quarter section, and this one is near Choiceland in the RM of Torch River.

A quarter section — for those unfamiliar — is about 160 acres. That's the standard unit of farm measurement out on the prairies, and this one is a mix of open farmland and treed areas.

[Show Prairie farmland with tree shelter belts]

It's listed at two hundred and seventy-nine thousand dollars — so you're looking at roughly seventeen hundred dollars per acre for mixed Saskatchewan land. That is genuinely competitive pricing.

This would work well as a crop farm, a cattle operation, or even a hunting and recreational property given the natural treed areas. Very versatile.

I love quarter sections as an investment — they're a known commodity in the prairies, easy to understand, and farmland in Saskatchewan has appreciated at an average of around 10% per year for the past decade.

■ **Fun Fact:** *The Torch River area of Saskatchewan is named after the Torch River itself, which flows through the region. The river's name reportedly comes from the Cree word for a plant that grows along its banks — one that Indigenous peoples used to make torches!*

■ FARM #11 — 344 Route 575 — Pole Hill, New Brunswick

■ \$279,500 | ■ Pole Hill, New Brunswick | ■■ 10.62 Acres | Working Maple Syrup Farm

About this Property: Listed by Keller Williams Capital Realty - Woodstock Branch, this is the only fully operational farm on our list — a working maple syrup operation near Hartland, New Brunswick. The property features 10.62 acres of maple trees with over 1,200 taps, a large double garage, and is privately located yet close to town. Maple syrup farming is a legitimate and growing agricultural business in Atlantic

Canada, and buying an established operation with over a thousand taps is a turnkey opportunity.

■ **Listing Link:** <https://soldwell.com/real-estate/Pole-Hill-NB/344-Route-575-E7P-3H9-NB132220-10280412>

■ **Timestamp:** 19:30 – 21:30

■ SCRIPT:

Okay — farm number eleven is my personal favourite on this entire list. Because this isn't just land — this is a WORKING farm.

We're going to Pole Hill, New Brunswick — and this is a maple syrup farm.

[Show maple syrup production imagery]

Ten and a half acres of maple trees, over twelve hundred taps, a large double garage — all for two hundred and seventy-nine thousand, five hundred dollars.

Do you understand what this means? You could buy this property and potentially start generating income from it almost immediately. Maple syrup isn't just delicious — it's a booming business. Canada produces over 70% of the world's maple syrup, and demand keeps rising.

This property is privately located, right near the town of Hartland, and comes set up and ready to go. If you've ever dreamed of making your own maple syrup — this is your literal turnkey dream farm.

And honestly? It's just really, really cool.

■ **Fun Fact:** *Hartland, New Brunswick — just minutes from this farm — is home to the world's longest covered wooden bridge! The Hartland Covered Bridge stretches 390.8 metres (1,282 feet) across the Saint John River and was built in 1901!*

■ FARM #12 — SE-13-81-10-W6 — Rural Saddle Hills County, Alberta

■ \$289,000 | ■ Rural Saddle Hills County, Alberta | ■ Quarter Section (~160 Acres)

About this Property: Listed by eXp Realty, this quarter section in Alberta's Saddle Hills County is positioned near Savanna in Wildlife Management Unit 359 — described as a renowned big-game hunting region. The land is recreational in nature, offering incredible hunting and wilderness experiences. Saddle Hills County is located in northwest Alberta, near the Grande Prairie region, known for its rugged beauty and abundant wildlife including moose, deer, elk, and bear.

■ **Listing Link:** <https://soldwell.com/real-estate/Rural-Saddle-Hills-County-AB/Se-13-81-10-W6-Twp-Rd-812-T0H-3G0-A2276197-10210958>

■ **Timestamp:** 21:30 – 23:00

■ SCRIPT:

And our final farm — number twelve — takes us to Alberta. Saddle Hills County, to be precise.

This is a quarter section — again, around 160 acres — in Wildlife Management Unit 359, which is described as a renowned big-game hunting region near the town of Savanna.

[Show Alberta wilderness imagery]

Listed at two hundred and eighty-nine thousand dollars, this is primarily positioned as a recreational and hunting property. If you love the outdoors — moose, elk, deer, bear — this is your playground.

Now you might not grow crops here — this is wild Alberta terrain we're talking about. But as a private hunting retreat, a family getaway, or even future timber value — this land has a lot going for it.

And that wraps up all twelve farms, folks! What a list.

■ **Fun Fact:** *Alberta is the only province in Canada with no provincial sales tax — it's one of the lowest-tax jurisdictions in the entire country, which is one reason land and property ownership here tends to attract buyers from across Canada and internationally!*

■ OUTRO — (23:00–24:00)

[Upbeat music returns — Show collage of all 12 farm thumbnails]

And there you have it — twelve of the cheapest farms for sale in Canada right now. From eighty acres in Saskatchewan for fifty-seven thousand dollars, all the way to a working maple syrup farm in New Brunswick.

Canada has some absolutely incredible land available — and so much of it is criminally underrated and underpriced compared to what you'd pay in the US or Europe.

All twelve links are in the description below — and if you want a beautifully formatted PDF with every single listing, clickable links, farm details, and fun facts all in one place, grab it from the link in the description.

[Point to description]

If you found this video helpful, please hit that like button — it genuinely helps the channel grow and helps me make more content like this.

And if you're new here — subscribe! We do deep dives into real estate, homesteading, rural properties, and everything in between.

Drop a comment below: which farm was YOUR favourite? I'm personally rooting for that maple syrup farm in New Brunswick — that one felt special.

Until next time — take care, dream big, and maybe start looking at some Canadian farmland. ■■
